Subject: Lauderdale-by-the-Sea Municipal Park parking and the McNab Elementary school bus stop

Dear Town Commission,

We are Lauderdale-by the-Sea residents and this year our oldest daughter started kindergarten at McNab Elementary and rides the public school bus. The mandated bus stop is at the Municipal Park. We just noticed that we cannot park for free at the park any more. We usually ride our bikes when we go to the park, so we did not notice when you started requiring the residential parking permits. When we asked some of the other parents about the parking situation, they said only Lauderdale-by-the-Sea residents can park at the park any more and a \$21 parking permit is required which would have to be renewed on October 1.

So in order for my child to ride on the public school bus and go to public school, we will have to pay the town of Lauderdale-by-the-Sea \$42 for the school year. Furthermore, one of the fathers who isn't a resident of LBTS, is also required to use this bus stop for his 8 year old child. He will have to park in metered parking and use about 1 hour of parking a day (30 minutes twice a day). If he parks at the only close parking available at town hall, it will run him about \$200 for the school year. It just doesn't seem right.

We have also noticed that barely anyone uses the park any more and these spaces are almost always empty. Some of the parents were going to throw a back to school party, but due to the parking situation they used Bayview park instead.

We don't understand what the issue with the free parking was in the first place. Is it possible to reallocate the free parking spaces we had? If not we have alternative suggestions.

Regards,
Robert Dew and Sherry Kramer

Subject: FW: Lauderdale-by-the-Sea Municipal Park parking and the McNab Elementary school bus stop

Bud,
 Let's put this topic on the September roundtable for discussion with several alternative solutions. CH
